Summary

Since the first time I started to write code I have loved every moment of it. I really enjoy seeing an idea go from nothing to something that I can be proud of. I have always been interested in making things so I studied a BEng in Road Transport Technology in Limerick Institute of Technology where, I gained valuable knowledge and where I also received an HDip in Business Management. For the past 2 years I have been working on many projects using multiple languages, libraries, and frameworks. From simple projects such as a password verification to more complicated projects such as java games, social networks, website protection, and plugins to help with email authentication, CSRF protection, and input validation among others.

Professional Attributes

- Good understanding of Java and OOP
- Excellent understanding of JavaScript, modularJs, jQuery and jQuery UI
- Experience using ReactJs and the PHP laravel framework
- Proficient user of PHP
- Experience using SQL
- Completed multiple projects using multiple languages.

Skills

Java	★★★★★★★★★
JavaScript	★★★★★★★★★
Reactjs	★★★★★★★★★
PHP	★★★★★★★★★
HTML	★★★★★★★★★
CSS	★★★★★★★★★

Projects

- iGoalo.com (username: js24 password: jsmith25) <http://www.igoalo.com/>
- OCWebTech (reactJs): <http://www.ocwebtech.com/>
- Template social network(laravel): <https://github.com/nialloc9/template-social-network>
- Captcha plugin: <https://github.com/nialloc9/captchamessageGeneratorandChecker>
- Java instant messenger: https://github.com/nialloc9/java_simple_instant_messenger
- Java Game: <https://github.com/nialloc9/java-game>
- Please feel free to browse all my other projects [here](#).
